The Wardrobe of Kings and Queens-A Costuming Establishment on Grand Principles-Anything and Everything En Masque.

We took a stroll yesterday through the mammoth establishment recently opened opposite Court square, which is be devoted entirely and strictly to the masquerade business, and which has been appropriately styled "Mardi-Gras Headquarters." The gentlemen in charge Messrs. Elliott, May, D'Arcy and Lecpold-are experts, and their familiarity with all the departments of the mas-querade business, from the plainest mask to the most elaborate and costly costume, representing every age and condition, will serve them well in making the "Mardi-Gras Headquarters" the most complete and popular costuming establishment in the southern country. Councilman Tuther said he thanked he members who had supported him in plete ever exhibited in the city, but the demand upon them has necessitated the employment of additional force, and the laboratory yesterday presented a picture of industry and activity such as is seldom witnessed except in the larger manufactories of the country. We were favorably impressed with the spirit of enterprise manifested by these gentlemen in this undertaking, for they not only have established a genuine manufacturing establishment right in the business center of the city, but they will be able soon to provide work for

numbers of people who otherwise would

be without the means of making a sub-

Besides the getting up of the beautiful costumes, they have fitted up rooms with proper appointments and accommodations suitable for ladies' and gentlemen's dressing-rooms, convenient to the sales-rooms and laboratory, which will be a striking feature of convenience to those who would forego the expense and inconvenience of hotel accommodations for such purposes. They have ladies employed especially to wait on lady customers, thus providing a great convenience for ladies, who hitherto have felt a delicacy in patronizing a cos tuming establishment. Those who would spend an hour pleasantly would find a walk through "Mardi-Gras Headquarters" both entertaining and instructive-instructive in the sense that here may be seen h w much a little enterprise can do in the way of providing work for a large number of operators, as well as to accommodate those who flud pleasure in masquerading, at so little cost that the humblest may indulge without incon-
